

**Mr. Javed Aslam:**

**Title: Role of PTCL in ICT**

**Abstract:** Pakistan Telecommunication Company Limited (PTCL) is the largest and leading telecom operator in Pakistan. PTCL has made continuous efforts to provide world-class telecom infrastructure for the development of the country and to increase the productivity of businesses and drive change through integration of Information and Communications Technology (ICT) services. PTCL's Information and Communications Technology solutions are geared towards enabling social, micro and macro-economic change and growth. The access to latest telecommunications solutions has helped increase the flow of market information, improve business productivity and create new opportunities for people, which have augmented the GDP growth of Pakistan. Due competitive telecom market, PTCL is continuously upgrading its infrastructure to the latest state of the art technologies and developing its human resources to provide better services to its customers.
